

90-90-90 TARGET

PERIOD: JUL – SEPT 2022

DATA QUALITY AUDIT 2022

The national performance during the 2022 audit showed improvement across the indicator both the use of TSIS as well as the matching indicators. The combined score of both audit parameters is 75% which equates to "Acceptable" (score between 60-79%) in the DQA audit compliance scale.

For the use of TSIS, an increase of 7% was noted between the 2021 Audit (68%) and the 2022 audit (75%). The improvement can be attributed to the increase in the proportion of dockets fully matched with TSIS (13% to 15%) and the completeness of data entered (72% to 78%).
